- Linux
- AWS (S3, EC2, Route 53)

CORE WORK SKILLS

- Leadership
- Logical Thinker
- Problem Solver
- Team worker
- Collaborator
- Fast Learner

PROFILE SUMMARY

I am a mobile and full-stack web developer with a strong desire to learn and adapt to the ever-changing IT industry. Hands-on experience in creating reliable, user-centric applications with Java, Kotlin, JavaScript, Flutter, PHP, and SQL & NoSQL databases.

EDUCATION

PHINMA UNIVERSITY OF PANGASINAN College of Urdaneta (2021 - 2025)

Bachelor of Science in Computer Science

LUCIANO MILLAN NATIONAL HIGH SCHOOL (2015 - 2021)

General Academic Strand

WORK EXPERIENCE

Intern (December 2024 - May 2025)

Cura Property Management Corporation

Back-end Developer

10 Montinola, Kisad Rd. Subd. Baguio City, Benguet 2600

- Helping improve the company's websites to make it easier for them to serve their customers
- Currently developing a landing page to showcase available units and allow users to quickly submit inquiries.
- Working with the development team members of Propsuite as a back-end developer to create new features for their system

MAJOR PROJECTS

Cura Services

Internship Project (2025)

Lead Developer

NextJS | TypeScript | React | Tailwind | PostgreSQL | AWS (EC2, S3, Route 53) | Namecheap

Landing page for Cura Property Management Corp. to showcase available units and allow customers to easily submit unit inquiries, aiming to enhance the company's online presence and customer engagement.

- Collaborating on the design and functionality of the unit inquiry system as part of the development team
- Effectively managing tasks and development timelines to ensure smooth progress toward project completion
- Successfully deployed the website to the internet for beta testing phase

Propsuite

Internship Project (2025)

Back-end Developer

PHP | Laravel | Tailwind | MySQL

Building a full-suite digital community management system to improve communication and make community services more accessible for developed communities.

- Collaborating with the team members of Propsuite to develop its new features
- Optimizing backend infrastructure for better performance and scalability
- Enhancing system functionality to improve user experience and efficiency

Venel Discoverer E-Commerce System

Thesis Project (2024)

Lead Developer

NextJS | React | MongoDB | AWS (EC2, S3) | OAuth

Created an e-commerce system for Venel Discoverer Consumer Good Trading to manage inventory and sell their products online and to provide customers with an easy shopping experience and helping increase sales.

- Led the design of the system as the lead developer and system designer
- Efficiently managed time and resources throughout the project
- Successfully completed the development of the web application

Hawak Kamay Scholarship Logbook

Personal Project (2024)

Lead Developer

HTML | CSS | JS | PHP

Created a Logbook for scholarship students of PHINMA University of Pangasinan College Urdaneta

- Designed and built the entire system independently, handling both frontend and backend development, built with REST API.
- Used HTML, CSS, JavaScript, and PHP to create a fully functional web application.
- Managed time and resources effectively to complete the project.
- Delivered a finished web application to track student facilitators of PHINMA University of Pangasinan College Urdaneta.

Don Denciong Cleaning Service

Freelance Project (2024)

Lead Developer

NextJS | React

Developed a booking website for Don Denciong Cleaning Service as a freelance project.

- Designed and implemented the system to allow customers to easily book cleaning services online.
- Built the website using NextJS and React, ensuring a fast and user-friendly experience.
- Led the development and design efforts, managing time and resources effectively.
- Deployed a fully functional web application that simplifies the booking process for customers.

Nippon TV

Personal Project (2024)

Lead Developer

Flutter

Developed a mobile and web application focused on Japanese TV programmes.

- Designed and built the app to allow users to easily browse and stream Japanese TV programmes.
- Used Flutter to create a cross-platform experience with a smooth and responsive user interface.
- Led the design and development, effectively managing time and resources.
- Delivered a fully functional application that provides seamless access to TV programs on both mobile and web platforms.

Jumpy

Personal Project (2022)

Lead Developer

HTML | CSS | JS

Developed "Jumpy," a platformer game, as a solo project.

- Designed and developed all aspects of the game, including mechanics and controls.
- Used HTML, CSS, and JavaScript to make the game work.
- Managed my time and resources to complete the project independently.
- Delivered a smooth, fun game with responsive controls.

Barangay E-Conn

Capstone Project (2022)

Assistant Developer

HTML | CSS | JS | Firebase | Android

Worked with the team to develop E- Conn Barangay Electronic Collection System.

- Assisted the team to design the system
- Efficiently managed time and resources consistently
- Helped the team to win the 2023 SP Madrid Hackathon contest as an assistant developer

Library Management and Book Reservation System

Capstone Project (2022)

Lead Developer

HTML | CSS | JS | NodeJS | ExpressJS | Firebase | Android

Worked with the team to develop a Library Management System for librarians to efficiently catalogue, organize, and manage library resources, and for students to easily search for, borrow, and return books while keeping track of their borrowing history

- Successfully managed the team members and delivered the project on time
- Efficiently managed time and resources consistently as a project manager
- Successfully developed a mobile and web application for the project deliverable

The Courtyards Condominium Baguio

Discover The Courtyards Condominium located in Leonila Hill-Ambiong, Baguio City, offering a serene and secure environment for students, professionals, couples, and small families. The community is composed of three residential buildings: Cabins, Manors, and Lodges, each designed to provide a comfortable living space in a peaceful mountain setting. This prime location is just a 10-15 minute ride to Saint Louis University Main Campus, SM City Baguio, the public market, and the Central Business District, making it an ideal home for those who value accessibility without the noise and convenience of city living. The Courtyards features excellent facilities and amenities including laundry, shop, convenience store, 24/7 security guards, and professional property management and leasing offices to ensure a worry-free stay. If you're looking for an affordable, safe, and convenient condominium for rent or long-term lease in Baguio City, The Courtyards Condominium at Leonila Hill-Ambiong is your perfect match.

About Us

Cura PROPERTY MANAGEMENT CORPORATION

ABOUT OUR COMPANY

CURA is a customer-centric property management company focused on delivering a high-touch, holistic management experience. Represented by warm colors symbolizing its service approach, CURA aims to sustain operations by managing client rental properties effectively while fostering an entrepreneurial mindset to address challenges creatively. With eight years of experience in residential and dormitory management, CURA provides sustainable property management services to enhance and maintain clients' real estate investments. As the exclusive property management company for Vester Corporation, CURA began managing Bayard Hall, a Vester Corp. dormitory project, in 2023.

Propsuite

The screenshots below demonstrate the Propsuite platform's interface across various modules:

- Permit and License:** Shows a dashboard with permit counts (Renewable: 3, Non-Renewable: 1) and a table of existing permits.
- Work Permits:** Shows a dashboard with work permit counts (Approved: 1, Active: 0, Refund Requests: 0) and a table of active work permits.
- Gate Pass:** Shows a dashboard with gate pass counts (Move-in: 18, Move-out: 0) and a table of approved gate passes.
- Propsuite Flow:** A three-step form for creating a gate pass, showing "Step 1: Work Information", "Step 2: Contractor Information", and "Step 3: Post Completion".

Each screenshot includes a purple header bar with the text "propsuite - This site is for testing purposes only" and a purple footer bar with the Propsuite logo and navigation links: "Need Support?", "Chat", and "techdev".

Projects

Venel Discoverer E-Commerce System

The screenshot displays the Venel Discoverer E-Commerce System across five panels:

- Top Left:** Home page showing a grid of products including fertilizers like VD Humic Acid, VD Foliar Fertilizer, and VD Grace Foliar Fertilizer.
- Middle Left:** Product detail page for "VD Zinc-Faith Chelated Zinc" showing a 5-star rating, price of ₱2499, and a "Buy Now" button.
- Bottom Left:** Another product detail page for "VD Grace Foliar Fertilizer" with a 5-star rating and price of ₱1500.
- Top Right:** Checkout page for customer "Dominic Enriquez" showing items in the cart: 3x VD Grace Foliar Fertilizer and 4x VD Humic Acid, with a total of ₱12596.
- Middle Right:** Purchase History showing a pending order for VD Grace Foliar Fertilizer (₱4500) and another for VD Humic Acid (₱7996).
- Bottom Right:** Orders - All page showing a table of 4 orders with columns for Order ID, Name, Payment method, Delivery status, Payment status, Amount, and Date created.

Hawak Kamay Scholarship Logbook

The screenshot shows the Hawak Kamay Scholarship Logbook system with three main components:

- Left Panel:** Login screen for "HK Facilitator Logbook" with fields for Username and Password, and a "Log-in" button.
- Middle Panel:** Dashboard titled "HK Logbook" featuring a golden graduation cap icon and buttons for "Time In" and "Time Out".
- Right Panel:** Detailed "Time In" form for document ID 03-3122-032964, showing fields for Forename, Surname, Course, Year, and Area, with a "Time In" button at the bottom.

How Dondenciong Works

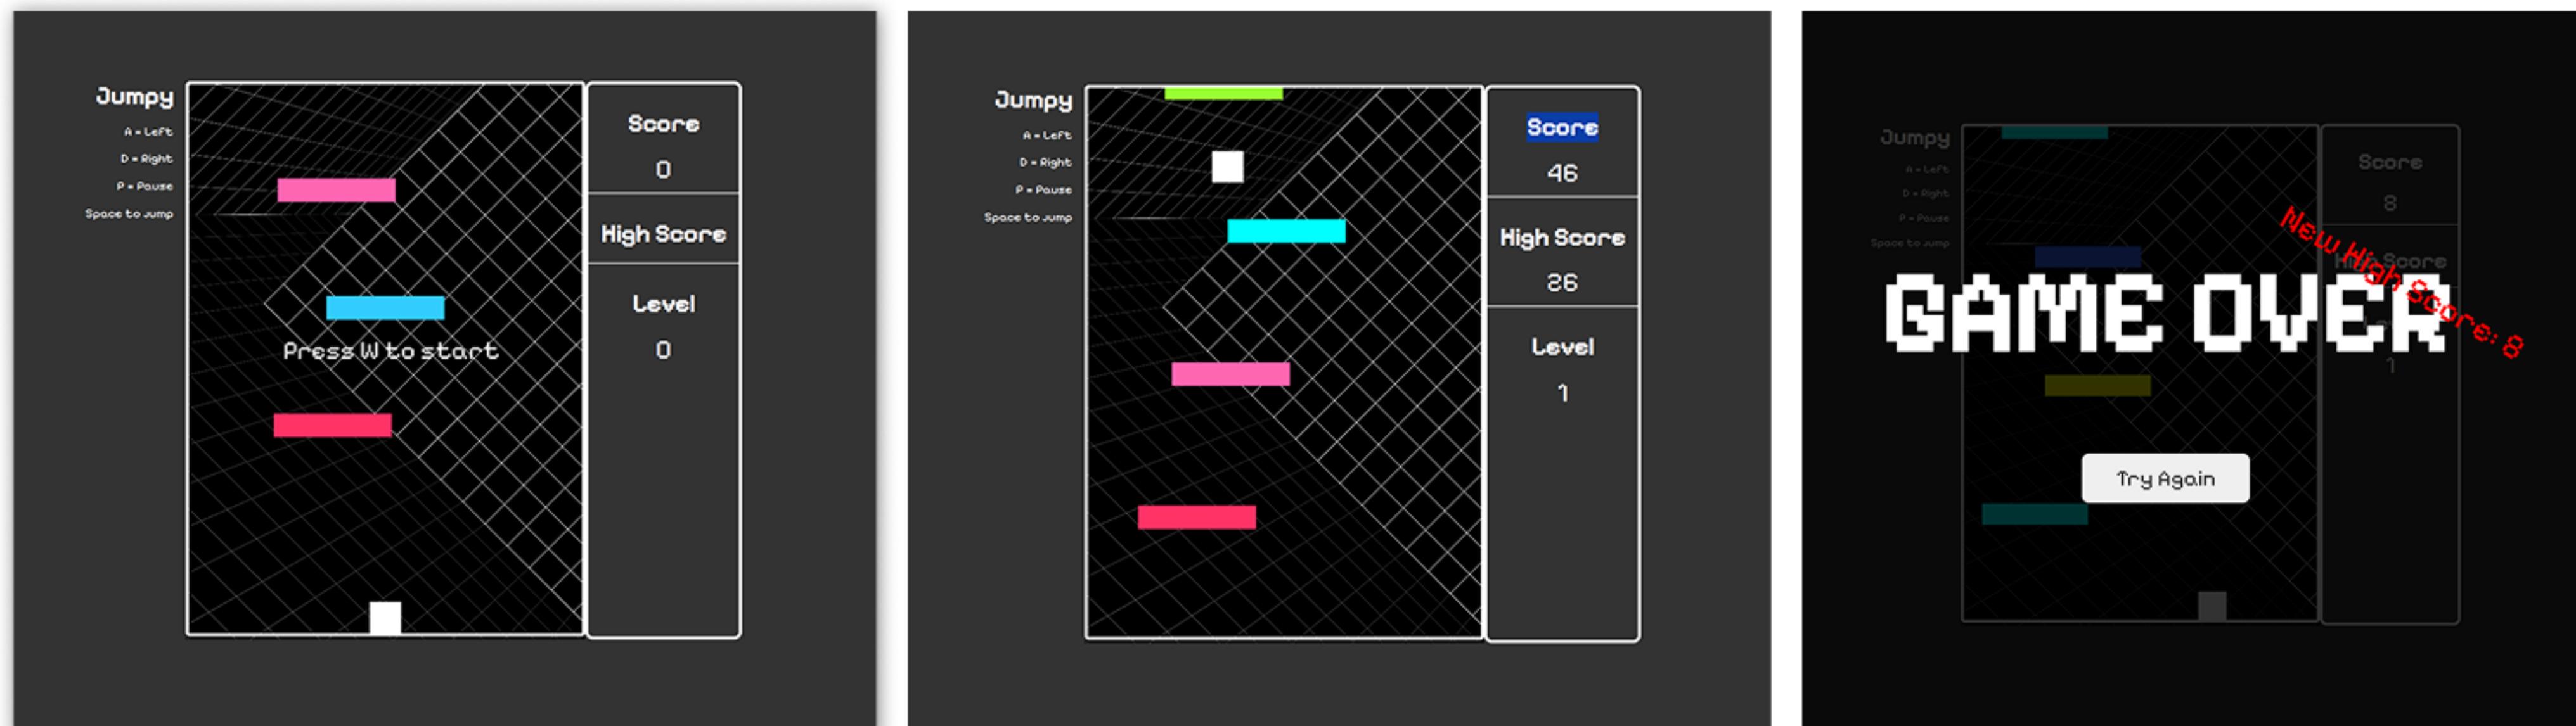

- Consultation**
We start with a free consultation to understand your cleaning needs and preferences. Whether it's a one-time deep clean or regular maintenance, we tailor our services to fit your requirements.
- Customer Plan**
Based on the consultation, we create a customized cleaning plan that outlines the tasks, schedule, and pricing. We ensure transparency and no hidden costs.
- Professional Cleaning**
Our experienced team arrives on time, fully equipped with the right tools and supplies. We follow strict protocols, ensuring every corner is spotless.
- Quality Check**
After the cleaning, we perform a thorough quality check to ensure that all standards are met. Your satisfaction is guaranteed.
- Feedback and Follow-up**
We welcome your feedback and use it to improve our services. We also offer follow-up services to maintain the cleanliness of your space.

Barangay E-conn

The wireframe grid for the Barangay E-conn project consists of 11 distinct screens:

- User Sign-In: A basic form with fields for Username and Password.
- Personal Information: A form for entering details like Name, Birth Date, Gender, Height, Weight, Place of Birth, Email, Mobile Number, Civil Status, Full Address, Citizenship, Profession/Occupation/Business, Purpose, and a Photo field.
- Welcome to Barangay: A landing screen for Jane Doe, showing a search bar and navigation links for Certificates, Pay Bills, Transactions, and Notifications.
- Barangay Certificates: A menu with options for Barangay Clearance, Barangay Business Permit, Summon, Association Registration, Cedula, and Certificate of Residency.
- Dashboard: Shows Sales Performance Summary with a bar chart for Clearance, Permit, Survey, Cedula, and Residency. It also displays Pending Requests (4), Total Delivery (1), Total Pick-up (6), and Total Users (4).
- Admin Login: A form for Admin Account with fields for Email and Password, and a Remember me checkbox.
- Pay Bills: A form for paying bills via GCash, listing categories like Daycare Center Tuition Fee, Garage Collection Payments, and Association Payments.
- Delivery Address: A form for entering delivery details, including Full Name, Phone Number, Street Name, Building, House No., and a Photo field.
- Mobile Application Interface: A wireframe of a mobile app showing a banner for "Empowering Local Communities through Digital Connectivity", a sidebar with icons for Online Applications, Payment Processing, Transaction Updates, Record Keeping, Advanced Planning, and Other Features, and a main screen with a grid of service icons.
- Features: A list of key features including eConn Benefits, Online Applications, Payment Processing, Transaction Updates, Record Keeping, Advanced Planning, and Other Features.
- Benefits: A list of eConn Benefits such as efficient service delivery, reduced paper usage, secure data storage, and enhanced connectivity.
- Library Usage Form: A detailed form for PUCU Library Usage, including sections for Refactoring, First Name, Middle Name, Year, Grade, Course, TVL, Purpose, and a large text area for Lost Books.
- Inventory: A table of books in the inventory, including columns for Title, Author, ISBN, Edition, Price, and Status.

Library Management System

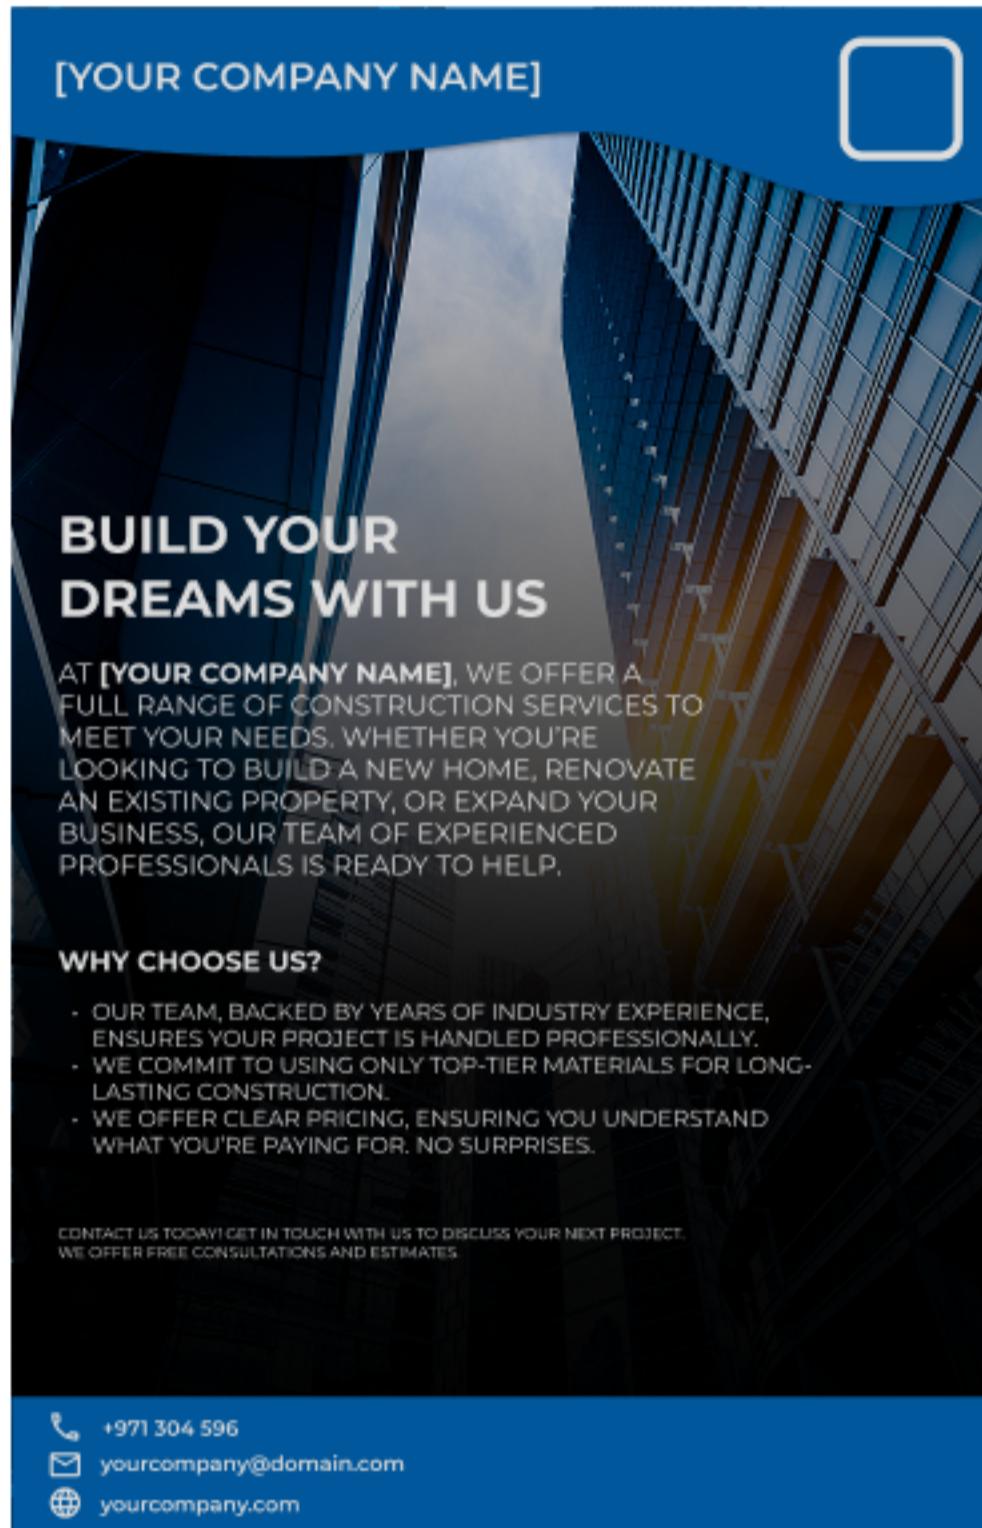

The wireframe grid for the Library Management System consists of 6 distinct screens:

- Reports: A dashboard showing Total Borrow Transactions with a pie chart and a donut chart, and an Inventory Status section with counts for Acquired Books (27), Released Books (7), and Lost Books (1).
- Inventory Status: A table showing the status of books in the library.
- PUCU Library Usage Form: A form for tracking library usage, including sections for Refactoring, First Name, Middle Name, Year, Grade, Course, TVL, Purpose, and a Lost Books section.
- Search Books: A search interface for books, showing results for titles like Harry Potter and the Sorcerer's Stone, How to Train Your Dragon, and Head First Java.
- Inventory: A table of books in the inventory, including columns for Title, Author, ISBN, Edition, Price, and Status.
- The Library: A dashboard showing Active Borrow (0), Overdue (14), Borrowers (3), and Visitors Today (7). It also features a bar chart for visitor count over time and a sidebar with library statistics.

The wireframe grid for the mobile Library Management System consists of 6 distinct screens:

- The Library Log In: A log-in screen with fields for Email Address and Password, and links for Log In, Don't have an account?, Sign Up, and Forget Password.
- Welcome Carl!: A dashboard showing LATEST UPDATES like Borrow Cancelled, Return Book, and Borrow Books Returned.
- Dashboard: A screen showing a grid of book covers for Data Science for Business, Design Patterns, Head First Java, and others, along with a Borrow button.
- Book Details: A detailed view of Head First Java by Kathy Sierra and Bert Bates, showing the book cover, English language, 2 reviews, 240 pages, and a Borrow button.
- Return Books: A screen for returning books, showing Borrow ID, Date Borrowed, Status (Active), Due Date (2024-05-03), and a Head First Java entry by Kathy Sierra and Bert Bates.
- Thank you for borrowing books!: A success message with a green checkmark icon and a CONTINUE button.
