## PROFILE SUMMARY

I am a senior college student at PHINMA University of Pangasinan with a strong desire to learn and adapt to the ever-changing IT industry. I am a mobile developer and a full-stack web developer and I am literate in Java, Kotlin, JavaScript and Firebase

## EDUCATION

### LUCIANO MILLAN NATIONAL HIGH SCHOOL (2015 - 2021)

General Academic Strand

### PHINMA UNIVERSITY OF PANGASINAN URDANETA CAMPUS (2021 - PRESENT)

Bachelor of Science in Computer Science

## MAJOR PROJECTS

### Library Management and Book Reservation System

Capstone Project (2022)

Lead Developer

HTML | CSS | JS | NodeJS | ExpressJS | Firebase | Android

Worked with the team to develop a Library Management System for librarians to efficiently catalogue, organize, and manage library resources, and for students to easily search for, borrow, and return books while keeping track of their borrowing history

- Successfully managed the team members and delivered the project on time
- Efficiently managed time and resources consistently as a project manager
- Successfully developed a mobile and web application for the project deliverable

### Barangay E-Conn

Capstone Project (2022)

Assistant Developer

HTML | CSS | JS | Firebase | Android

Worked with the team to develop E- Conn Barangay Electronic Collection System.

- Assisted the team to design the system
- Efficiently managed time and resources consistently
- Helped the team to win the 2023 SP Madrid Hackathon contest as an assistant developer

### Jumpy

Personal Project (2022)

Lead Developer

HTML | CSS | JS

Developed "Jumpy," a platformer game, as a solo project.

- Designed and developed all aspects of the game, including mechanics and controls.
- Used HTML, CSS, and JavaScript to make the game work.
- Managed my time and resources to complete the project independently.
- Delivered a smooth, fun game with responsive controls.

## **Venel Discoverer E-Commerce System**

Thesis Project (2023)

Lead Developer

NextJS | React | MongoDB | AWS

Proposed an e-commerce system for Venel Discoverer Consumer Good Trading to manage inventory and sell their products online and to provide customers with an easy shopping experience and helping increase sales.

- Led the design of the system as the lead developer and system designer
- Efficiently managed time and resources throughout the project
- Currently overseeing the development of the web application for the project's deliverables

## **Hawak Kamay Scholarship Logbook**

Personal Project (2024)

Lead Developer

HTML | CSS | JS | PHP

Created a Logbook for scholarship students of PHINMA University of Pangasinan College Urdaneta

- Designed and built the entire system independently, handling both frontend and backend development.
- Used HTML, CSS, JavaScript, and PHP to create a fully functional web application.
- Managed time and resources effectively to complete the project.
- Delivered a finished web application to track student facilitators of PHINMA University of Pangasinan College Urdaneta

## **Don Denciong Cleaning Service**

Freelance Project (2024)

Lead Developer

NextJS | React

Developed a booking website for Don Denciong Cleaning Service as a freelance project.

- Designed and implemented the system to allow customers to easily book cleaning services online.
- Built the website using NextJS and React, ensuring a fast and user-friendly experience.
- Led the development and design efforts, managing time and resources effectively.
- Deployed a fully functional web application that simplifies the booking process for customers.

## **Nippon TV**

Personal Project (2024)

Lead Developer

Flutter

Developed a mobile and web application focused on Japanese TV programmes.

- Designed and built the app to allow users to easily browse and stream Japanese TV programmes.
- Used Flutter to create a cross-platform experience with a smooth and responsive user interface.
- Led the design and development, effectively managing time and resources.
- Delivered a fully functional application that provides seamless access to TV programs on both mobile and web platforms.
